ARCHITECTURE

A range of nearly one hundred co-ordinated designs chosen to express the flavour of various architectural periods and available in three sizes - miniature, standard & large. Dimensions printed underneath the designs refer to the miniature format. To obtain standard size multiply by two and large by five. For example, the column sections illustrated below are available in the miniature size of 3X2.5 inches (7.6X5.1cms), standard of 6X5 (15.2X12.7) and large of 15X12.5 (38.1X31.7).

Designer Range

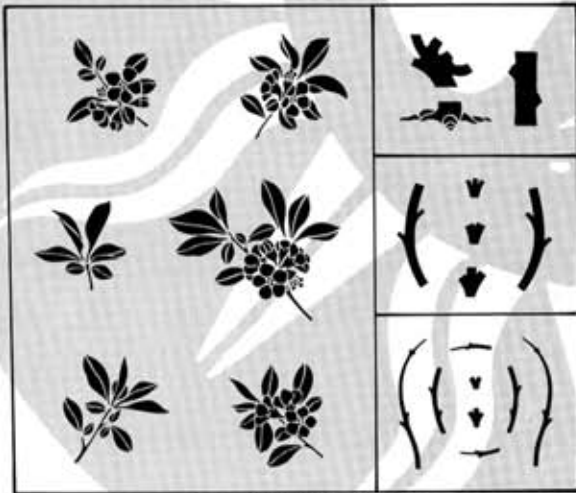

A range which allows the stenciller the freedom to dictate the finished size and shape of the design. The stencil consists of a sheet of component parts which imitate the natural growth of the plants concerned (see illustrations below). The stencils are very easy to use and, with a little planning, the most adventurous schemes are within the scope of all.

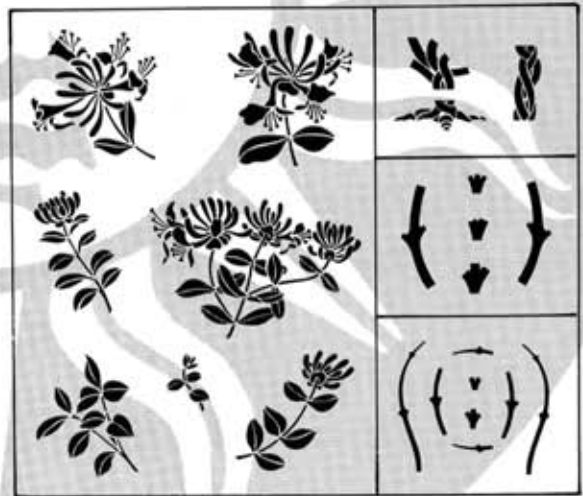

DR1 IVY

By virtue of being a climbing plant, this design differs somewhat from the rest of the range.

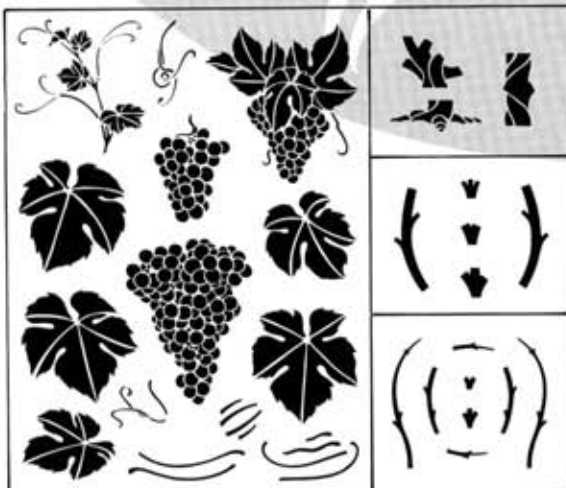

The stencil sheet sizes in this range are a standard 22x25 (55.9x63.5) except for the Ivy which measures 17.5x23.5 (44.5x59.7)

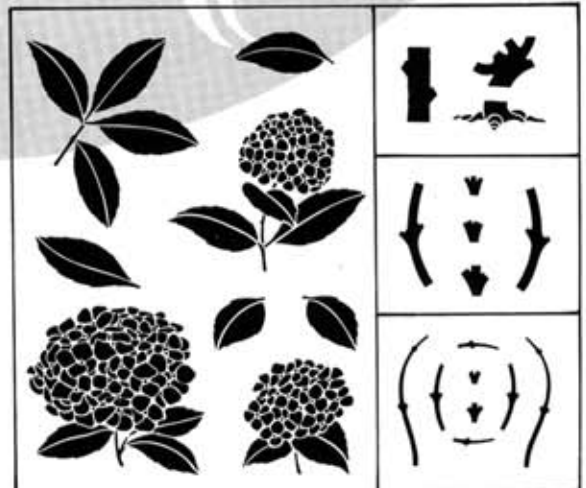

DR2 CHERRY BLOSSOM

DR3 HONEYSUCKLE

DR4 VINE

DR5 HYDRANGEA

The stencils illustrated on this page include a trunk section to allow for variable plant height.

ORIENTAL FANS

Fans are an integral part of the iconography of Japanese design.
The three fans illustrated are large scale versions designed to have maximum
impact in any scheme.

These stencils make use of three overlays.

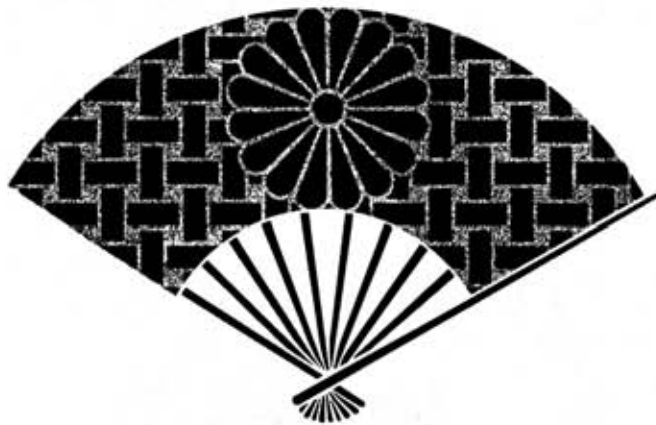

Smaller, simplified versions of the fan motif
which lend themselves to use on walls, fabric or items of furniture.
These are two part stencils with the exception of JA39 which is a single layer stencil.

REPEAT PATTERNS

A series of repeat patterns ranging from the highly pictorial to simple geometrics. They are extremely easy to use and very accurate. To help you to judge the size and scale of the repeat, there is a measurement underneath each design which refers to the height of the image on the stencil. This image is shown in either black or white on the illustration with the surrounding repeats shown in grey.

CRESTS

Beautiful stylised motifs used over the centuries by Japanese families on their robes and armour.
They have an air of modernity despite being many hundreds of years old.
These designs are produced in two sizes, 6" (15.2cm) high and 12" (30.4cm) high.

JA115 BIRDS & BLOSSOM No.2 18.1x17.75 (46x45.2)

A black and white woodblock-style illustration. The central focus is a large, circular, stylized face of a bird, possibly a crane, with long, flowing neck feathers. The face is rendered in a high-contrast, graphic style. Surrounding the face are several branches with blossoms and leaves. Three smaller birds are perched on these branches: one at the top, one on the right, and one at the bottom. The entire scene is set against a dark, circular background that blends into the surrounding black space.

THEME · PACK

Theme Packs are a range of stencils which allow the creation of co-ordinated schemes from a single sheet of matching images. The three illustrations above give an indication of the possibilities. The sheets measure 8 by 10 inches (200 x 255mm) and, in the main, consist of a large central motif, a border and smaller subsidiary motifs. This range is not available uncut.

COVER STORIES

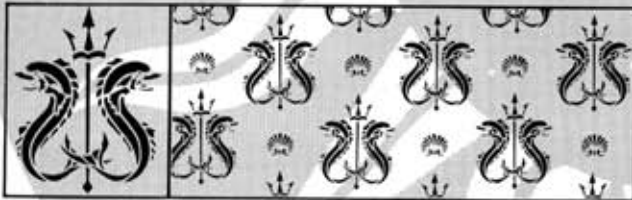

AN EFFORTLESS WAY TO CREATE REPEATING STENCIL PATTERNS.

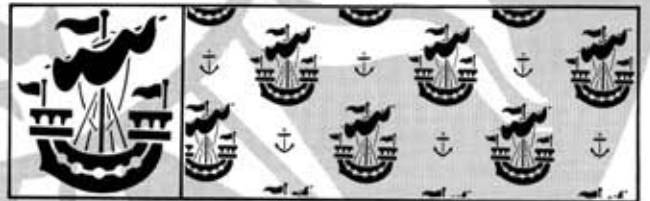

After stencilling an initial motif, establish the next position by simply overlapping the image printed on the edge of the stencil. This can be repeated indefinitely in any direction. The designs consist of a main motif measuring 4 ins/100mm alternating with a smaller counter motif. In some cases there is a linking background pattern.

The panels above show the different effects obtainable from one stencil. A solo image (9ins/235mm) is available to co-ordinate with each of the designs.
